

Here we are again, a couple of weeks into 2021 and there is another lockdown.

Hopefully we are into the last leg and will be able to resume our usual services soon but for now we at Vision Support would like to remind you we are still here!

Our services may be a little different at the moment but we are still on the phones on **01244 381515** for North Wales and Chester and **0151 511 8801** for Halton Sensory Services.

If you would prefer to email please email **information@visionsupport.org.uk**

If you need any support with equipment, digital skills or have any general enquiries at all please get in touch.

It would be great to hear from you!
